

## Outpatient Rehabilitation Services Accepting External Referrals for COVID-19

Acceptance to an existing outpatient rehab program is based on meeting the program's admission criteria. You can find information on a program's admission criteria through the GTA Rehab Network's [Rehab Finder](#).

Organizations	Information on programs
<a href="#">Baycrest Health Sciences</a>	Admits to the Saul and Rae Saltzman Day Treatment Centre, if a patient fits the admission criteria and COVID-19 resolved. It may be possible to admit a patient who is still COVID-19 positive if he/she can manage the technology and the team determines that care can be provided virtually until the patient is COVID-19 resolved. Link to <a href="#">referral form</a>
<a href="#">Halton Healthcare</a>	Has a dedicated <a href="#">Post COVID-19 syndrome clinic program</a> . In addition, patients are admitted to all appropriate existing outpatient rehab programs (e.g., <a href="#">Neuro Rehab Step-Up</a> , <a href="#">Cardiac Rehab &amp; Education</a> , <a href="#">Work Fit Total Therapy Centre</a> , <a href="#">Falls Prevention Program</a> ).
<a href="#">Lakeridge Health</a>	Admits to existing outpatient rehab programs, if patients meet the admission criteria. Otherwise, patients will be referred to other community rehab clinics.
<a href="#">Mackenzie Health</a>	Admits to the Cardiovascular and Pulmonary Rehabilitation program (CVPR).
<a href="#">Scarborough Health Network</a>	Admits patients who are COVID-19 recovered to the outpatient neuro rehab or physiotherapy (ortho) programs primarily for neuro or orthopaedic related diagnosis. COVID-19 might be identified as secondary medical diagnosis.
<a href="#">Sinai Health System/Bridgepoint Active Healthcare</a>	Admits patients who have had COVID-19 to all existing outpatient rehab programs based on established admission criteria.
<a href="#">Sunnybrook Health Sciences Centre/St. John's Rehab</a>	Admits to existing appropriate outpatient rehab programs. Patients must meet existing admission criteria for these programs.
<a href="#">Toronto Grace Health Centre</a>	Outpatient respirology services will start August 2021. This includes interprofessional rehab team assessment and intervention, as appropriate. Link to <a href="#">referral form</a>
<a href="#">Unity Health Toronto/Providence Healthcare</a>	Admits to the COVID-19+ recovered outpatient rehab program. Completed <a href="#">referral form</a> should be faxed to the Admissions Office at 416-285-3759.

Organizations	Information on programs
<a href="#">University Health Network/Toronto Rehab</a>	UHN/Toronto Rehab accepts COVID-19 recovered patients into any specialty outpatient rehab programs (e.g., Geriatric outpatient rehab, Brain [ABI and Stroke] outpatient rehab, Spinal cord outpatient rehab). Patients must meet existing admission criteria for these programs.
<a href="#">West Park Healthcare Centre</a>	Admits total joint replacement and stroke (mild) patient groups to appropriate existing programs. Referrals for outpatient rehab programs need to meet existing admission criteria to be accepted.
<a href="#">William Osler Health System</a>	Patients who are COVID-19 resolved are accepted to existing outpatient rehab programs provided they have additional diagnoses or deficits that meet the program's usual admission criteria (e.g., neurological deficits).
